Dear Ernst:

I am glad to tell you that the Committee is recommending you for a degree magna cum laude. You are excused from finals in French 20, History 142b, History 144 and History 150. You are to take the final in German 130.

You can pick up your thesis on Monday in Grays, between eleven and one.

I should like to see you and talk your plans over with you before you go away. Would you like to look in Monday afternoon about four? I know that you are very tired and I think that you are rather discouraged because none of the fellowships came your way. Rest will cure the first, and I think I can explain the fellowship results so that you won't take them over-seriously. Your record is one that you can be proud of, and I have great confidence in your future, especially since listening to you in your examination the other morning.

Yours sincerely,

Elliott Perkins
