

Dear Lichtes Kind -

I feel guilty about sending you only a copy of such a long letter, which should really have been to you in the first place. But my parents need it very much. They do not know many things about me as well as you do. To you I do not need to write all this.

I am behind on my work now, - and must catch up. I think of you often and love you very very much.

Dein
Jochem.

Please let me ~~to~~ have this copy ~~again~~ back again, - will you? I want it for some work I am trying to get started.
