REV. PAUL ANDREW KIRSCH, D. D., SECRETARY

Dear Jochen:

It was good news indeed for the Committee on Southern Mountain Work and the Staff of the Board to learn that you are planning to work alongside of your esteemed father in Konnarock during the coming summer. Some of us have been praying that our good Lord will direct your heart upon the completion of your medical training to become associated with our Konnarock Medical Center and thus to continue building additional superstructures upon the sound foundation laid by your good father, so ably supported by your good mother.

Executive Secretary Gerberding and I very much desire to discuss this whole question with you and we will be pleased to have you suggest a number of dates when you could come to the Board's office for a conference. We will then confirm one of these dates.

With kindest greetings and all good wishes for a joyous and blessed Eastertide, I am

Faithfully yours,

Paul Andrew Kirsch, Secretary
Division of Special Missions
