

Dear Margrit,

3/26/98

Welcome Back to Belmont!

I moved your papers from the desk in 2 plastic bags according to stacks. They are returned to the desk. I thought Jochen might use desk for Contact lens insertion, but he has not.

I note that you have not used the empty drawers in the desk. (I emptied them for you). Would you like a plastic 3 tiered desk tray? I have at least one.

I washed and mended the top sheet on your bed. The children were here yesterday: Benjamin as doctor using the red lamp for X-Ray machine. I noted 2 small tears in end of top sheet. It is also an old item. I reversed it top to bottom.

Books are coming due. May we return Stellers Heart and ✓? I will renew The Work of Poetry if possible. It is a new book.
