

March 25, 1998

Dear Margaret -

I can't believe I really did find the enclosed. It was in a shoe box - deep in a closet. The SAS shoes are sold in Maine at a chain of shoe stores - Lamey Wellehan.

I'm so glad you were able to join us last Friday. It was also good to focus on something other than the treatment dilemma

for Alex and for Betty. Betty is doing fine, by the way. Negative biopsies of bladder wall and the tumor removed is apt to recur but not to be metastatic.

It snowed here most of Saturday & Sunday until we left for the last session at MGH Monday morning. But Alex saw a robin on his early morning walk yesterday. Our greetings to Lillian & the neighbors. Love - Ursula
