Dear Jocheb -

I saw David Houslonner weeks ago and asked him whether he would prefer to be called at home or at the Inn; His answer: "at home; tell your brother that I'm often not there until 9p.m. or after." I would think that you could call him until 10 p.m. I regret that I didn't think of asking him about that...-You well know that I am unhappy about that hedge. I hope that you will call him when you are in Konnarock. His #:276-579-6652.

Did I tell you that I appreciated your post-birthday call? I thank you for making it in spite of your aversion to such occasions. Helmut also called and asked me to transmit his warm greetings to you and Margaret. He commented that he has been very busy, thinks he will be returning for a visit next summer at the latest.

I think that you should invite Katrina and Aaron for a week-end in Boston and ask Katrina to consult with you on the Nantucket project. I know that she would be thrilled to be asked. You might suggest that they choose dates convenient for them, since between the pressures of Aaron's work, Katrina's school, they lead a busy life. Let me know when/if you write, and I'll suggest they they spend an extra day or two with me. Both of them would enjoy looking around in Providence also.

Yes, I do look forward to seeing you in Belmont next week.

Margaret
